

# White Label Incentive Model

## D. Usage Payments

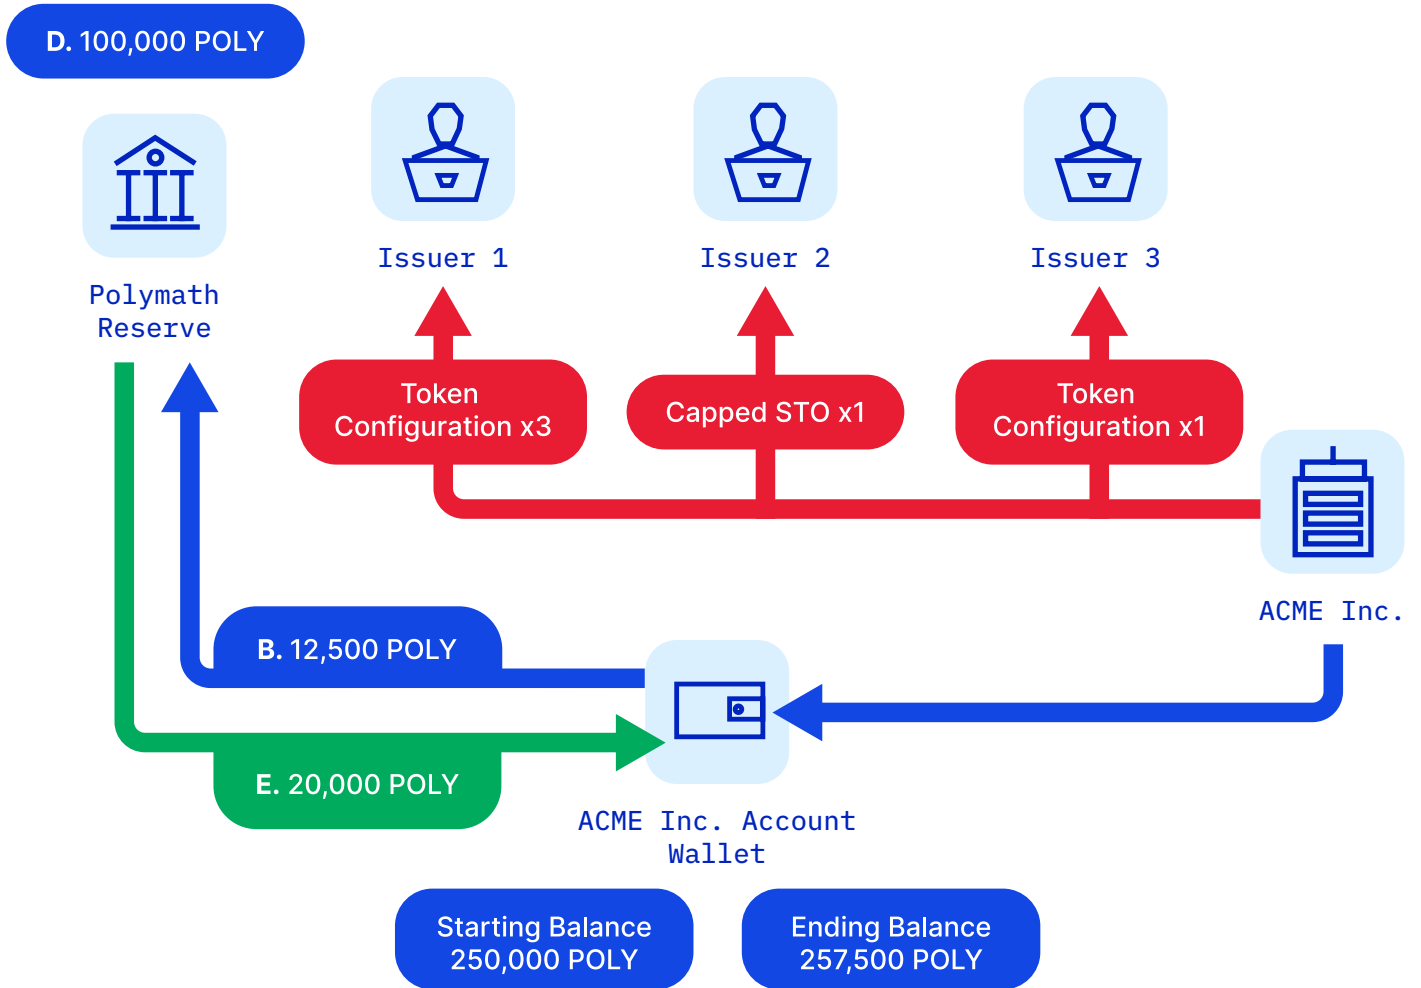

█ Variable Payment per Usage    █ Variable Tech Usage    █ Fixed Payment

- A. Regulatory requirements** — a deposit of 250,000 POLY once signed as a Polymath white label.
- B. Monthly Drawdown** — the fixed monthly subscription fee of POLY paid for access, support, and incentive rebate.
- C. Technology Usage** — use of the technology for token configuration and issuance. Fees charged to the issuer are determined by the White Label Company.
- D. Usage Payments in POLY** — payments to Polymath from the Company that are based on Technology Usage (C.) e.g. reservation, configuration, etc.
- E. Monthly Rebates** — an incentivized percentage rebate set at 25% of monthly Usage Payments (D.).

# An Example

The following details the first month of fictional company ACME Inc. white labelling Polymath technology.

	Transaction Cost	Rebate at <b>20%</b>
Issuer 1 Token Reservation Config. x3	12,500 POLY * 3 = 37,500 POLY	<b>257,500 POLY</b>
Issuer 2 Simplified STO x1	50,000 POLY	<b>257,500 POLY</b>
Issuer 3 Token Reservation Config. x1	12,500 POLY	<b>257,500 POLY</b>
<b>TOTAL</b>	<b>100,000 POLY</b>	<b>20,000 POLY</b>

## Polymath Usage Fees

- 
**Ticker Reservation**  
2,500 POLY
- 
**Capped STO**  
50,000 POLY
- 
**USD Tiered STO**  
150,000 POLY
- 
**Token Configuration**  
10,000 POLY
